

Satellite radio is the best technology developed in years. The advantages include:

- 1....the ability to listen to various types of music without commercials
- 2....the ability to listen to uninterrupted coverage while on a trip where there is no other coverage and basically stay awake
- 3....the ability to know about the weather in other parts of the country while in route to a particular city
- 4....the ability to reduce road rage while driving in heavy traffic due to the various types of entertainment available on satellite radio
- 5....the continuous flow of traffic and weather information to help reduce traffic congestion vs. the short periods of traffic and weather reports reported on regular radio
- 6....and on and on and on
